Class descriptions March 5 – April 28 (seven weeks) – **(No classes March 26 – April 2 inclusive)**

<p><b>Level 3+ – 6 PowerMat Classes</b></p>	<p>PowerMat classes focus on reviewing, practicing and increasing the pace of the Essential Matwork (<b>Level 3</b>), with preparation and strengthening for the Intermediate Matwork (<b>Level 3/4</b>), executing the Intermediate Repertoire with modifications (<b>Level 4+/5</b>), and full execution of the intense Intermediate exercises (<b>Level 5/6</b>). <b>PowerMat means we will be increasing the intensity and challenge of the exercises through the use of small equipment and props such as mini stability balls, flex bands, hand weights, stability balls, fitness circles, toning balls, body bars, BOSUs and foam rollers.</b></p>
<p><b>Introduction to Essential Pilates Level 1-2</b></p>	<p>An introductory level class that will guide participants through the five (5) STOTT principles of breathing, neutral alignment, scapular stabilization, rib cage placement and cervical placement while learning and practicing the Essential Matwork exercises (Level 1 and 2) at a lower intensity. <b>Essential Pilates Level 2/3 THE BASICS</b> is also a slower-paced approach to the Essential Matwork, building endurance and strength. These classes are open to all client and for those would like to review the Essential exercises and the STOTT pilates principles. It is recommended new clients attend Introductory classes twice weekly. <b>Registration is recommended for new clients.</b></p>
<p><b>Level 3+ PURE MAT</b></p>	<p>Don't worry about any equipment in this class! The focus is on the second half of the Essential exercise repertoire with no extra resistance or equipment. A gentler pace with more detail on alignment and repetitions.</p>
<p><b>Group TRX-3/4 Pilates COMBO Class</b></p>	<p>The ultimate CORE CONDITIONING class! The two best practices for your core in one workout. Just the basics of TRX conditioning while working the shoulders, arms and the large lower body muscles for higher caloric output. Finish the class on the mat focusing on spinal mobility and balanced strength, proper alignment and overall flexibility. No experience necessary for TRX!</p>
<p><b>Pilates for Osteoporosis and Back Care</b></p>	<p>Our Pilates for Osteoporosis classes are specifically designed to assist participants in performing many pilates-based exercises which target posture, core strength and mobility. Participants will also learn how to develop core strength in various movement patterns, such as standing, sitting and lying down as well as increase peripheral strength with use of equipment such as toning balls, flexbands and Fitness Circles. <b>Registration is recommended.</b></p>
<p><b>GROUP TRX® STRENGTH &amp; CARDIO CLASSES</b></p>	<p>This cardio-strength combo TRX class will challenge the fittest of clients. The TRX® is a complete training system that can positively influence all types of athletic movement. Safely perform dozens of exercises that build <b>power, strength, flexibility, balance, mobility, and prevent injuries, all at the intensity you choose.</b> It is recommended participants go through an <u>Introduction to GROUP TRX®</u> to learn the basics such as how to lengthen and shorten the strap, the names and method of the exercises and how to increase intensity of each exercise to individualize the workout. <b>Registration is recommended</b></p>
<p><b>Reformer classes Beginner (Level 1) to Advanced (Level 5)</b></p> <ul style="list-style-type: none"> <li>• <b>Four participants per class.</b></li> </ul>	<p><b>The reformer offers all the famous benefits of Pilates including overall strength, flexibility, coordination, and balance.</b> Exercises can be done lying down, sitting, standing, pulling the straps, pushing the foot bar, perched on the foot bar, perched on the shoulder blocks, with additional equipment, upside down, sideways and all kinds of variations thereof. The reformer can train many parts and dynamics of the body in so many different ways with just one relatively sleek piece of equipment. <b>Level 3 and 3/4 Intermediate Reformer</b> classes introduce and refine the extensive Intermediate repertoire with a focus on endurance and higher intensity intervals. <b>Level 4+ Reformer</b> includes practicing and perfecting the Intermediate repertoire with a focus on flow, breathing changes and increased core strengthening to prepare for the ultimate challenge in Advanced Reformer (<b>Level 5</b>). <b>Registration is required.</b></p>
<p><b>LUNCHTIME YOGA</b></p>	<p>Buffy will be leading a Hatha-based yoga class with some Ashtanga and Kundalini for fluidity and breath work. Each class is created for the basic student. Intermediate and Advanced students will find plenty of space to expand and intensify the postures. Buffy's intention for every class is, of course to increase flexibility and strength, but more importantly, to build a variety of sequences that will leave every student feeling lighter than when they arrived. A feeling that can carry them through the rest of the day and often into the next. <b>Registration is required.</b></p>
